

2023 MVP Health Care[®] Commercial Formulary (List of Covered Drugs)

Please Read: This document contains information about the drugs we cover in this plan.

This formulary was updated on **January 1, 2023**. For more recent information or other questions, please contact the MVP Customer Care Center.

You can reach the Customer Care Center using the phone number listed on the back of your MVP Member ID Card, Monday – Friday, 8 am to 6 pm (Eastern Time), (TTY: **1-800-662-1220**).

For more detailed information about your MVP Health Care[®] (MVP) prescription drug coverage, please review your Certificate of Coverage or Summary Plan Description. Please be advised that this document is updated periodically, and changes may appear prior to their effective date to allow for member notification.

For the most recent information or other questions, please contact the MVP Customer Care Center at the phone number listed on the back of the MVP Member ID card.

How do I use the Formulary?

There are two ways to find a drug within this Formulary document. On your keyboard, press *CTRL+F* to bring up a search window.

1. **Search by Medical Condition** The drugs in this Formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "Cardiovascular." If you know what your drug is used for, look for the category name in the document below. Then look under the category name for your drug.
2. **Search by Drug Name** If you are not sure of the category, look for your drug in the Index. The Index provides an alphabetical list of all the drugs, both brand name and generic, included in this document. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information.

Are there coverage restrictions?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

PRIOR AUTHORIZATION (PA) MVP requires your physician to get prior authorization for certain drugs. This means that you will need to get approval from MVP before you fill your prescriptions. If you don't get approval, MVP may not cover the drug. Some drugs not listed on the formulary document follow approved MVP prior authorization policies. Please note that all new drugs will be excluded from the formulary and require prior authorization until reviewed by the MVP Pharmacy and Therapeutics (P&T) Committee. The P&T Committee recommends drugs to be excluded from coverage if they do not have significant clinical and/or therapeutic advantages over drugs currently covered by the Plan. The committee uses utilization, pharmacoeconomic and clinical data to develop the exclusions. However, not every member may be able to tolerate formulary drugs due to clinical ineffectiveness or adverse/allergic reactions. A formulary exception (prior authorization) process for these cases will allow members to receive otherwise non-covered medications.

QUANTITY LIMIT (QL) Some drugs in the formulary have a maximum quantity that may be received over a specified time period. The list of drugs with quantity limits is subject to change and drugs with them are marked by a "QL." The amount of drug covered is based on clinical

considerations. If you require more than the allowed quantity, the prescribing practitioner should initiate a request for coverage.

STEP THERAPY (ST) In some cases, MVP requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, MVP may not cover Drug B unless you try Drug A first. If Drug A does not work for you, MVP will then cover Drug B.

SPECIALTY DRUGS (SP) Specialty medications are used in the management of complex chronic or genetic conditions and certain catastrophic diseases. They are most often injectable medications but may also include oral agents. Drugs identified in the formulary as "SP" must be filled through the CVS Specialty Pharmacy or another pharmacy in the specialty network.

OVER THE COUNTER MEDICATIONS (OTC) Certain medications listed in the formulary are available over the counter. For these to be covered by insurance, a prescription is required.

MEDICAL (M) These drugs are covered under your Medical benefit. Typically, these products are obtained and administered by your physician. If you do not receive these medications from your physician, they must be obtained from CVS Specialty pharmacy, or another pharmacy in the specialty network.

AGE Some medications have age restrictions to ensure they are used in appropriate age groups. If you are outside of the age restriction but require the use of a drug with an age edit, your practitioner can submit a request for coverage and tell us why you need this drug.

More information

Your physician is the person best suited to help you make decisions about prescription drugs, and the prescription drug information here is intended for consumer guidance only. This information relates to the Prescription Drug Formulary, generally, and may not describe your specific coverage. Your Certificate of Coverage or Summary Plan Description determines your benefits, limitations and exclusions.

While every effort has been made to ensure accuracy, some information may be out of date. The Formulary is subject to change based on decisions made by the Pharmacy & Therapeutics (P&T) committee. New drugs are not covered until reviewed by the P&T committee. Medications with an over-the-counter equivalent are not a covered benefit. Drugs entering the market between 1938 and 1962 that were approved for safety but not effectiveness are called "DESI" drugs. DESI drugs are not covered on the MVP Commercial Formulary.

The information contained in the MVP Commercial Formulary is provided solely for the convenience of medical physicians. MVP does not warrant or assure accuracy of such information nor is it intended to be comprehensive in nature. The MVP Commercial Formulary is not intended to be a substitute for the knowledge, expertise, skill, and judgement of the medical practitioner in his/her choice of prescription drugs. The document is subject to state-specific

regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands, and mandatory generics whenever applicable. MVP assumes no responsibility for the actions of any medical practitioner based upon reliance, in whole or part, on the information contained herein. The medical practitioner should consult the drug manufacturer's product literature or standard references for more detailed information.

Your employer may have limited your coverage of certain prescription drugs. In the case of some drugs, the Plan may limit coverage to a specific quantity or a specific course of treatment. The Plan may also require prior authorization on some covered drugs. If you need more information about policies regarding a specific drug, consult your physician or contact the MVP Customer Care Center. If the medication you take is not listed below, contact the CVS Caremark Customer Care Center at the phone number listed on your identification card.
